XII.—Sinus Thrombosis of Otitic Origin and Its Relation to Streptococcemia. By EMIL GRUENING, M. D., New York	147
XIII.—A Case of Recurrent Mastoiditis with Involvement of the Labyrinth. By HUGH B. BLACKWELL, M. D., New York	155
XIV.—Sinus Thrombosis, Cellulitis of the Foot, and Acute Inflammation of the Thyroid Cartilage. By T. L. SAUNDERS, M. D., New York	159
XV.—The After-Treatment of Operated Accessory Nasal Cavities. By HENRY HORN, M. D., San Francisco.....	163
XVI.—Latest Advances in the Study of Tinnitus Aurium. By D. BRYSON DELAVAN, M. D., New York.....	173
XVII.—Further Observations on Some of the Newer Therapeutic Measures in Ear, Nose and Throat Affections. By JOSEPH C. BECK, M. D., Chicago	273
XVIII.—Report of Two Cases of Brain Abscess in the Frontal Lobe, Secondary to Ethmoiditis and Frontal Sinusitis. By JOHN MCCOY, M. D., New York.....	287
XIX.—Observations on the Pathologic Conditions of the Nose and Throat, with Special Reference to the Tubal Regions, Associated with Chronic Catarrhal Otitis Media. (A Study of Fifty Cases.) By HAROLD HAYS, A. M., M. D., New York	295
XX.—The Classification of Middle and Internal Ear Diseases. By S. J. KOPETZKY, M. D., New York	319
XXI.—Obstinate Stenosis of the Larynx Following Diphtheria—Reports of Two Cases. By D. J. GIBB WISHART, M. D., Toronto	335
XXII.—Laboratory Methods as Aids in Diagnosis of Nose, Throat and Ear Affections. By JOSEPH C. BECK, M. D., Chicago	340
XXIII.—Atresia of the External Auditory Canal. By EDGAR A. FORSYTH, M. D., Buffalo.....	345

TABLE OF CONTENTS.

v

XXIV.—Remarks on the X-Ray Technic in the Treatment of Laryngeal Papillomata in Children. By A. L. GRAY, M. D., Richmond348

XXV.—Removal of a Rhinestone from the Middle Ear of a Child—Exhibition of Specimen. By CLEMENT F. THEISEN, M. D., Albany351

XXVI.—Thrombosis of the Jugular Bulb Without Apparent Involvement of the Lateral Sinus; Unusual Blood Count; Metastasis; Paralysis of External Rectus Oculi. By JOHN R. PAGE, M. D., New York.....353

XXVII.—Thrombosis of the Lateral Sinus; When to Operate; What Type of Operation to Choose. By E. A. CROCKETT, M. D., Boston.....356

XXVIII.—The Serodiagnosis of Syphilis in Its Relation to Diseases of the Ear. By EDMUND PRINCE FOWLER, M. D., New York367

XXIX.—The Report of a Case of Cerebral Abscess Occurring in Connection with a Chronic Middle Ear Suppuration. By HUGH B. BLACKWELL, M. D., New York.....376

XXX.—Latent Mastoiditis with Epidural Abscess. By ALFRED BRAUN, M. D., New York381

XXXI.—Report of Two Cases of Lateral Sinus Thrombosis Treated, Postoperatively, with Hiss' Extract of Leucocytes. By SAMUEL McCULLAGH, M. D., New York.....387

XXXII.—The Use of Vaccines, Serums and the Hiss Extract of Leucocytes in the Treatment of Eye, Ear, Nose and Throat Infections, with Reports of Cases. By J. G. DWYER, M. A., M. D., C. M., New York.....394

XXXIII.—The Subperiosteal Abscess of the Mastoid Region. By PROF. HOLGER MYGIND, Copenhagen.....529

XXXIV.—Operative Procedure for Brain Abscess of Otitic Origin. By L. W. DEAN, M. S., M. D., Iowa City.....541

XXXV.—The Resection of Bony Deflections of the Nasal Septum. By OTTO T. FREER, M. D., Chicago.....559

XXXVI.—Some Laboratory Aids to Otologic Diagnosis. By FREDERICK E. SONDERN, M. D., New York.....	587
XXXVII.—Quinina and Urea Hydrochlorate (Syn. Quinina-Carbamidum, Urea-Quinine) as a Local Anesthetic. By E. FLETCHER INGALS, M. D., Chicago.....	595
XXXVIII.—The Manifestations of Recurrent Influenza in the Nose and Throat. By JOSEPH L. GOODALE, M. D., Boston	599
XXXIX.—Laryngitis Dolorosa. By WOLFF FREUDENTHAL, M. D., New York	606
XL.—The Physiology of the Cochlea (Sammelreferat). By GEO. E. SHAMBAUGH, M. D., Chicago.....	618
XLI.—Black Tongue—Lingua Nigra Villosa—With Report of a Case. By CHAS. H. KNIGHT, M. D., New York.....	631
XLII.—Carcinoma of the Uvula. By E. M. HOLMES, M. D., Boston	639
XLIII.—Syphilitic Stenosis of the Nasopharynx. By J. M. INGERSOLL, A. M., M. D., Cleveland.....	646
XLIV.—Some Cases of Otitic Meningitis. By J. E. SHEPARD, M. D., Brooklyn.....	651
XLV.—Vincent's Angina. By H. ARROWSMITH, M. D., Brooklyn	658
XLVI.—A Case of Tympanic Vertigo. By J. E. SHEPARD, M. D., Brooklyn.....	665
XLVII.—Acute Infection of the Larynx, Diagnosis and Treatment. By F. E. HOPKINS, M. D., Springfield, Mass.....	668
XLVIII.—History of a Case of Recurrent Papilloma of the Larynx, Extending Over Thirty Years, During Which Two Thyrotomies Were Performed. By FRANCIS R. PACKARD, M. D., Philadelphia.....	676
XLIX.—A Case of Submaxillary Abscess Caused by the Use of an Infected Toothpick. By CLARENCE PORTER JONES, Newport News	681

L.—The Respiratory and Vocal Symptoms in Papillomata of the Larynx. By G. HUDSON-MAKUEN, M. D., Philadelphia	684
LI.—Some Tuning Fork Tests With a Special Auscultation Tube. By L. M. HUBBY, M. D., New York	683
LII.—Abducens Paralysis and Otitis Media Purulenta. By CHAS. E. PERKINS, M. D., New York	692
LIII.—Abscess of the Larynx, With Report of a Case. By J. S. WATERMAN, M. D., Brooklyn	705
LIV.—The Sinus Maxillaris and Its Relations in the Embryo, Child, and Adult Man. By JACOB PARSONS SCHAEFFER, A. M., M. D., Ph. D., Ithaca	815
LV.—The Effect of Maxillary Readjustment Upon the Development of Nasal Chambers and Face. By GEO. V. I. BROWN, A. B., D. D. S., M. D., C. M., Milwaukee	885
LVI.—Widening the Dental Arches in Nasal Stenosis, Its Results and Possibilities. By NELSON M. BLACK, M. D., Milwaukee	933
LVII.—Some Points in the Comparative Anatomy of the Larynx in the Anthropeidea. By J. GORDON WILSON, M. D., Chicago	951
LVIII.—The Physiology of Tone Perception. By GEORGE E. SHAMBAUGH, M. D., Chicago	983
LIX.—The Present Status of Labyrinthine Surgery. By S. J. KOPETZKY, M. D., New York	994
LX.—Concerning the Capsulated Bacteria in the Production of Acute Middle Ear Affections. By H. B. GRAHAM, M. D., San Francisco	1017
LXI.—The Anatomic Explanation of Vestibular Nystagmus. By LOUIS K. GUGGENHEIM, M. D., St. Louis	1024
LXII.—An Investigation of Postoperative Conditions Five to Ten Years After Intubation. By BURT R. SHURLY, M. D., Detroit	1063

LXIII.—A Case of Purulent Pachymeningitis With Extradural Abscess, Subdural Abscess, and Septic Thrombosis of the Lateral Sinus, Complicating Chronic Suppurative Middle Ear Disease. By JAMES J. CARROLL, A. M., M. D., Baltimore1080

LXIV.—From the Annual Report of the Sanatoria for Tuberculosis in the United States of America and Canada. By J. W. GLEITSMANN, M. D., New York.....1088

LXV.—A Case of Brain Abscess With Rare Ocular Symptoms. By C. BARCK, M. D., St. Louis.....1100
